

## Successful “Rigging” Seminar Held at Club

On Feb. 9, 2023 at the Clubhouse, Steve White gave an excellent presentation on “Rigging” as part of our *Boating Education and Skills* series. In addition to being our very own Rear Commodore, Steve is one of the coast’s most respected professional riggers and runs his own rigging company, SW Rigging.

The seminar was well-attended (by about 20 attendees) and was extremely informative and practical. According to one attendee, the combination of graphics and “real objects” that Steve presented was very effective. His approach was extremely practical for sailors who want to do their own rigging assessments and be able to make repairs before something dire happens! The presentation overall received rave reviews and much appreciation.

Kudos also go to the organizing team of Cheri and Stewart Reid, who have been working with Fleet Captain Cruising John Lugsdin to present these off-season seminars for members. Anyone with ideas or offers for further presentations can contact the Reids at [courses@saltspringsailing.ca](mailto:courses@saltspringsailing.ca).
